Spring 2024

To creativity its freedom

Petals resembling little round fans. Free-floating oval fruits, all in the shades of blue, yellow, and poppy red. Distinct compositions as an illusion of movement – like visual music.

The Akris Spring 2024 collection is inspired by Felice *Lizzi* Rix-Ueno, a textile and craft designer, who in the early 20th century, established herself as one of the most remarkable artists of the *Wiener Werkstätte* [Vienna Workshop] with her design poetry.

Her work emphasizes a concept of *Fantasie* [Fantasy], as she liked to call it. Lizzi was convinced that only inner creativity will lead to one's identity, truly believing in the idea of craft as a momentum. It is what guided Creative Director Albert Kriemler in designing this collection; woven into hand-embroidered poppies, tassels transformed into sleek fringe, and organza in suits and coats.
